

New doubles partnership raises the roof

Capita Symonds, recently formed from the merger of Capita Property Consultancy and Symonds Group is one of the UK's largest, fastest growing and diverse property and infrastructure consultancies. Our breadth of expertise, geographic reach and extensive resources ensure us a high ranking amongst the top seeds of the industry.

Capita Symonds are also helping to safeguard future Wimbledon championships from the vagaries of the British summer as structural engineers for the retractable roof system being built over the showpiece Centre Court - the world's most famous tennis arena.

And our amazing team of some 3,000 talented designers, technologists, managers, engineers and support staff work

together on schemes of all types and complexities from hotels to hospitals, through tunnels and bridges to roads and retail.

Such prestigious projects require top players - successful people who want to add our reputation to theirs.

We are actively recruiting now across all disciplines. If you want to play with the best we want to hear from you. Up your game now by exploring www.upyourgame.co.uk or call us on 01455 852525 to be part of our winning team.

that sets us apart

Capita Symonds, recently formed from the merger of Capita Property Consultancy and Symonds Group, is one of the UK's largest, fastest growing and diverse property and infrastructure consultancies. Our breadth of expertise, geographic reach and extensive resources ensure us a high ranking amongst the top seeds of the industry.

Capita Symonds has also acquired the leading architectural practice Percy Thomas Architects. The acquisition has positioned Capita Symonds as one of the top architectural practices in the UK with 300 architects across the UK and will further enhance our standing as the UK's fastest growing creative consultancy.

Percy Thomas Architects will now operate as Capita Percy Thomas

Amongst many high-profile, sporting projects Capita Symonds is helping to safeguard future Wimbledon championships from the vagaries of the British summer as structural engineers for the retractable roof system being built over the showpiece Centre Court – the world's most famous tennis arena.

We are already well known in the world of football as structural engineers at Old Trafford and project managers at Stamford Bridge as well as acoustic engineers and project managers for the new Wembley National Stadium.

And Capita Symonds is leading the procurement bid for the Aquatics Centre for the London 2012 Olympic Games and Paralympic Games on behalf of the London Development Agency and has also been appointed as the Environmental Impact Consultants to assess the impact of the regeneration scheme on over 600 hectares of the Lower Lea Valley.

Our amazing team of some 3,000 talented designers, technologists, managers, engineers and support staff work together on schemes of all types and complexities from

hotels to hospitals, through tunnels and bridges to roads and retail. Such prestigious projects

require top players – successful people who want to add our reputation to theirs.
