SWITCH WITH CONFIDENCE

CONTACTUM

Contactum Ltd are a British company that have been designing and manufacturing electrical wiring accessories in Great Britain since 1936.

Always at the forefront of technical advances, Contactum's name is synonymous with innovative products manufactured to the highest industry standards.

In keeping with this reputation Contactum have now introduced a superb new range of electrical wiring accessories – The flatplate range.

This stylish range of slim profile switches and sockets comprises 58 products available in a wide range of distinctive styles and finishes.

Combining design flair and style with manufacturing excellence and reliability means that the flatplate range becomes an integral part of any interior design rather than just electrical accessories.

And they don't just look good – all switches can be fitted simply and quickly – retrofitting into existing 25 mm flush mounting boxes, and still with plenty of room for adjustment, saving valuable installation time.

Here are just some of the features that make the new flatplate range so versatile:

- Unobtrusive design, slim profile (1.5 mm) plates in Solid Stainless Steel & Solid Brass
- Handsome toggle switches complement today's retro-styling
- Solid metal rockers to complement plates
- No need to chase walls as switches fit existing 25 mm mounting boxes, sockets 35 mm boxes, shaver socket and 45A switches 47 mm boxes
- Lots of wiring space allows for easy positioning and easy orientation of the plate
- NEW, 2 way intermediate and DP 1-4 gang toggle switches
- NEW, discrete, elegant neon lights
- NEW, stylish 2A lighting socket
- NEW, unique finish – Beautiful warm copper
- Coloured fixing screws to complement the plates

The Contactum flatplate range is one of the most comprehensive on the market. As you would expect the products comply with all the relevant standards and carry a 25-year guarantee.

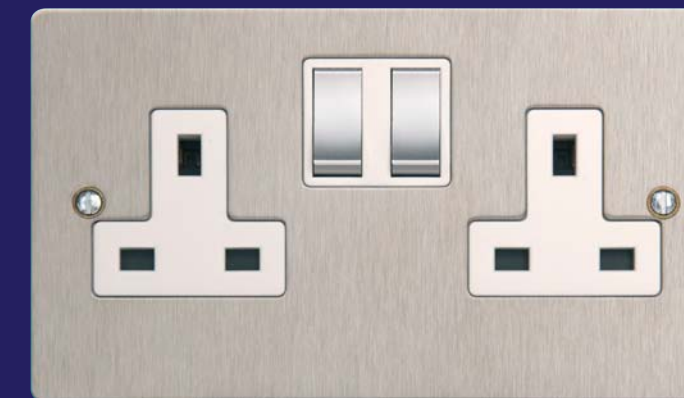

stainless steel

polished

These beautiful flatplates, formed with 1.5 mm solid stainless steel have all the durability you would expect from a Contactum accessory. Highly polished to give a lasting mirror-like finish, they are available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

brushed

Formed with 1.5 mm solid stainless steel as above but with a beautiful, soft, vertical brushed effect. This range is also available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

To see the full range of stainless steel flatplate products and their ordering codes turn to our Style Guide on page 6 of this brochure.

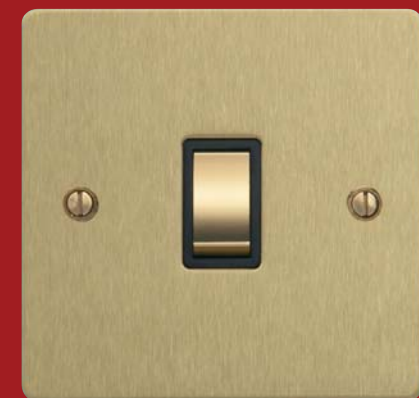

brass

polished

The clean lines, unobtrusive styling and highly polished finish of these brass flatplates makes them the perfect choice to complement traditional interiors. Made from 1.5 mm high quality solid brass they are very strong and with a highly polished finish that is lacquered for extra durability, they look stunning. They are available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

brushed

And for a softer, modern look choose from the brushed brass flatplate range. Formed with 1.5 mm solid brass as above but with a fine brushed effect and then lacquered. Also available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

To see the full range of brass flatplate products and their ordering codes turn to our Style Guide on page 6 of this brochure.

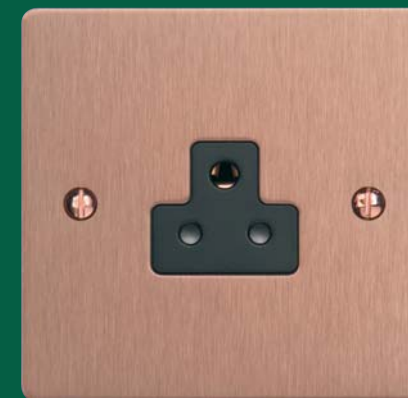

copper

polished

This unique, new range of copper flatplates with their rich, warm lustre will add that extra special look to any interior. Highly polished and lacquered these 1.5 mm plates combine strength with beauty and style. They are available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

brushed

All the warmth of beautiful copper but with the soft look that a finely brushed surface gives. These 1.5 mm plates are vertically brushed and then lacquered, they are also available with white or black inserts. Sockets and switches are available with moulded or metal rockers, the matching fixing screws are supplied in two lengths 25 and 30 mm

To see the full range of copper flatplate products and their ordering codes turn to our Style Guide on page 6 of this brochure.
